

Noise-Sensitive Facilities and 5 km Candidate-Site Buffers

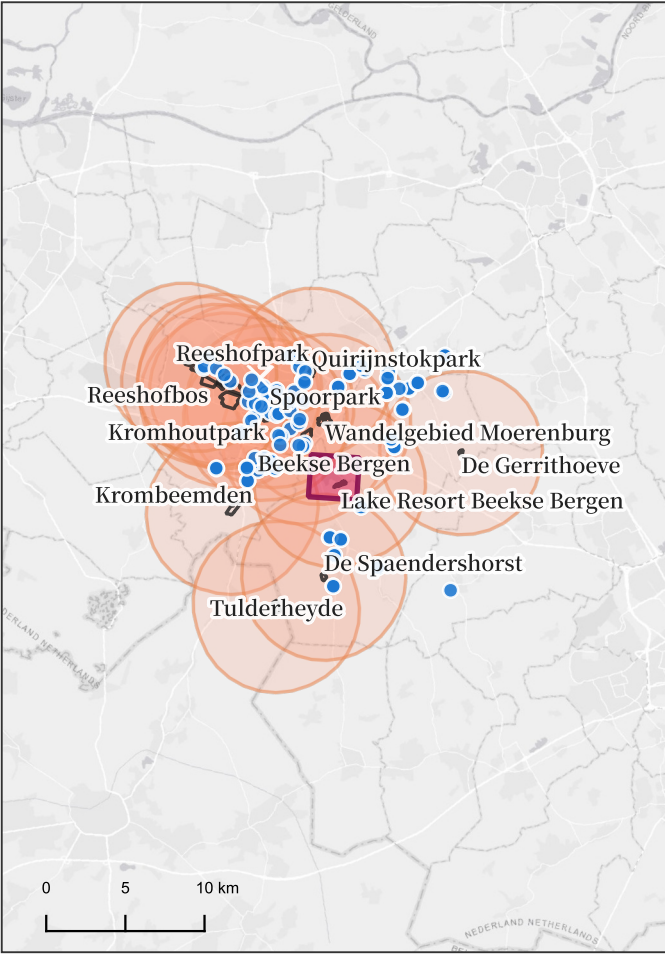

Orange buffers show 5 km impact zones around candidate sites; blue and red symbols mark high-sensitivity schools and hospitals.

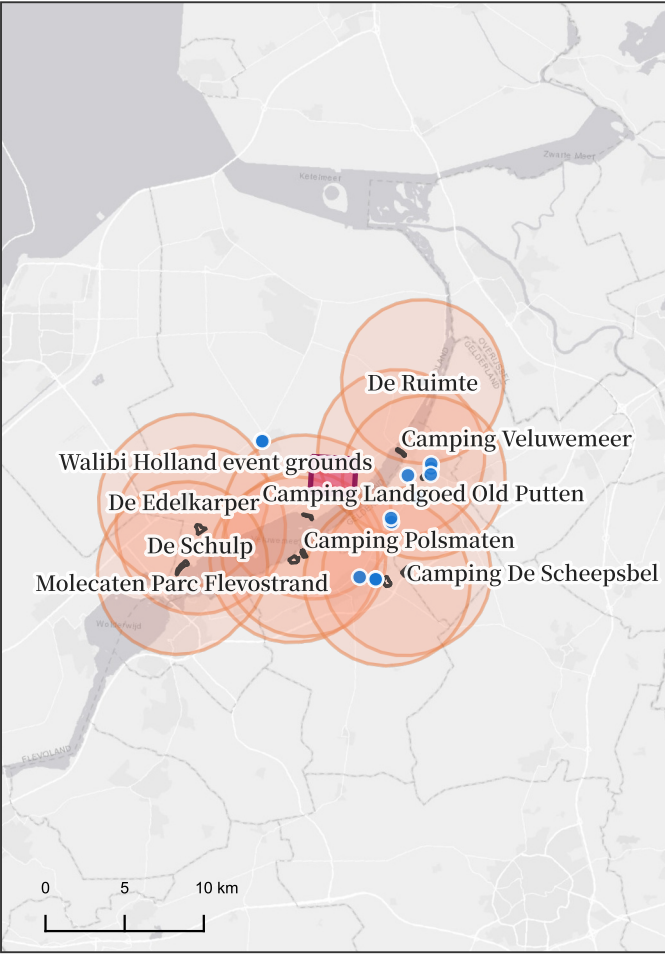

A. Tomorrowland / De Schorre cluster

B. Awakenings / Beekse Bergen cluster

C. Defqon.1 / Walibi Holland cluster

Legend

- 5 km candidate-site buffer
- Real festival venue boundary
- Candidate-site boundary

- School
- Hospital

CRS: EPSG:3035 (meters); scale bars use kilometers. Data: OSM high-sensitivity facilities, PostGIS candidate-site buffers and venues.

Current noise-sensitive facility classes in the database are schools and hospitals; no elderly-care facilities are present in the imported OSM subset.
